An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Govindaswamy on 4-27-2005.

The application has been amended as follows: Claim 1, at the page numbered as 5 by applicants, as a new line after line 4, -- K<sup>1</sup> is hydrogen; - - has been inserted. This value was originally omitted by applicants as a value of K<sup>1</sup>. However in the specification in all of the many compounds specifically disclosed and exemplified as to synthesis its value is hydrogen. See the pyrrolidine ring containing compounds from pages 33 to 62 where the carbon atom of said pyrrolidine ring, to which the chain containing the A and B groups is attached, also has a hydrogen atom attached to it.

Claim 10 has been deleted.

Claim 26, line 3 ", -C(=O)-O-CH<sub>2</sub>-Ph" has been canceled.

Claim 26, line 5 (made up of 3 structural formulas) has been canceled in its entirety.

Claim 26, lines 6 and 7 have been replaced with

The above cancelled formulae are not within the scope of independent claim 1.

The following is an examiner's statement of reasons for allowance: Applicants have limited the scope of the claims as suggested by the Examiner..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
